

آزمایش حلقه های نیوتون و گوه هوا

## Newton's rings & Air vedge Exp

### Required equipments for the Experiment:

- Special stand base 110002
- Power supply for sodium and mercury lamp 110010
- Sodium lamp with housing 110011
- Measuring microscope 220006
- Apparatus for Newton's rings 220401
- Beam splitter with holder 220402
- MultiClamp(N=1) 110003
- Stand base,V shape 110005
- Stand rod 110007
- Optical Plates (N=2) 220501

### Descriptions:

Producing of linear polarized light ,verifying the Malus' law and studying about the effect of an inhomogeneous environment on polarized light.

**Warranty :** One year

**After sales service :** Ten years
