Solutions Company**

RAAD Multi-Laser System

One System with Different Laser Wavelengths (400-1000 nm)

- Medical Low-Level Laser Therapy
- Cold Laser Therapy in Dentistry
- Research Applications

Raad Multi-Laser System: Just Buy One Device to Have Several Laser Wavelengths For Home and Professional Laser Treatments

Standard Package Includes:

- One Raad Multi-Laser Controller
- One Recharger
- 4 Laser Wavelengths of 450, 660, 780, and 808
- 2-Year Manufacturer Warranty
- Operator Manual & User Guide

Device Specifications

Wavelengths Available (nm)	Standard Output Powers (mW)
405	80
445	80
488	50
515	10, 80
635	100, 180
660	150, 200, 300
785	150
808	200, 300, 500
850	200
980	100
Power Stability	Less than 10% change
Lifetime of lasers	More than 10000 hours

Notes

- (1) Laser diodes with wavelengths different from the above-mentioned items are available through ordering options.
- (2) Output powers different from the standard powers are also available through ordering options.
