FanAzma Gostar

Best technology
for your laboratory

About us:

FanAzma Gostar was founded in early 1996 with the aim of producing laboratory equipment, and after receiving various certifications such as the clearance of the Ministry of Health and Medical Education and the international certificates ISO13485 and ISO9001, FG is now one of the most reputable manufacturers in Iran. The company's many years of experience as the leading oven manufacturer in Iran soon led to it becoming one of the foremost manufacturers of laboratory equipment, attracting consumers' attention by producing distinct and diverse products. The company's innovation led to its success in inventing water distillers with no water loss for the first time in the world. Receiving management and quality certificates from major global and domestic organizations was another achievement for the company. In early 2011, the company took a major step in the production of new and varied products with the construction of a new factory in Nazarabad Industrial Park. Constructed on a land with an area of 4,000 square meters, the factory employs state of the art machinery and is now one of the largest manufacturers of laboratory equipment in the Middle East, producing more than 70 pieces of laboratory equipment. Decades of experience and precision engineering in development and production as well as collaboration with academic and research centers have distinguished FG products from the existing examples on the market.

With a quick look at our products, you will also notice that all of our products have distinctive features that have ultimately brought nothing but comfort, exemplary durability, high accuracy, and unique beauty for the satisfaction of our customers. Now, with many years of experience, we are one of the leading manufacturers of laboratory equipment, and our products are distributed not only in Iran, but also in other countries. We owe these achievements to our hardworking staff, the technical knowledge of our managers, the utilization of cutting edge machinery, the use of high quality raw materials, and the constructive suggestions of our customers.

1996: Establishing FanAzma Gostar Company
1996: Receiving the certificate of industrial activity from the Ministry of Industry
1998: Becoming a member of the Trade Association of Manufacturers of Medical, Dental and Laboratory Equipment
2005: Obtaining a patent from the Industrial Property Organization for the water distiller with no water loss
2006: Receiving a clearance from the Reference Laboratory of Iran for ovens, hot incubators, and water baths
2007: Receiving quality assurance from the Ministry of Health for ovens, hot incubators, and water baths
2008: Receiving ISO9001 and ISO 13485
2009: Receiving the ISIRI badge for ovens for the first time in Iran
2010: Launching a new factory in Nazarabad Industrial Park
2013: Receiving the operation license from the Ministry of Industry.
2014: Receiving the manufacturing license for laboratory diagnostic tools from the Office of Health Reference Laboratory.
2017: Being endorsed as a knowledge enterprise by the Vice President for Science and Technology

FanAzma Gostar

Best Technology
For Your Laboratory

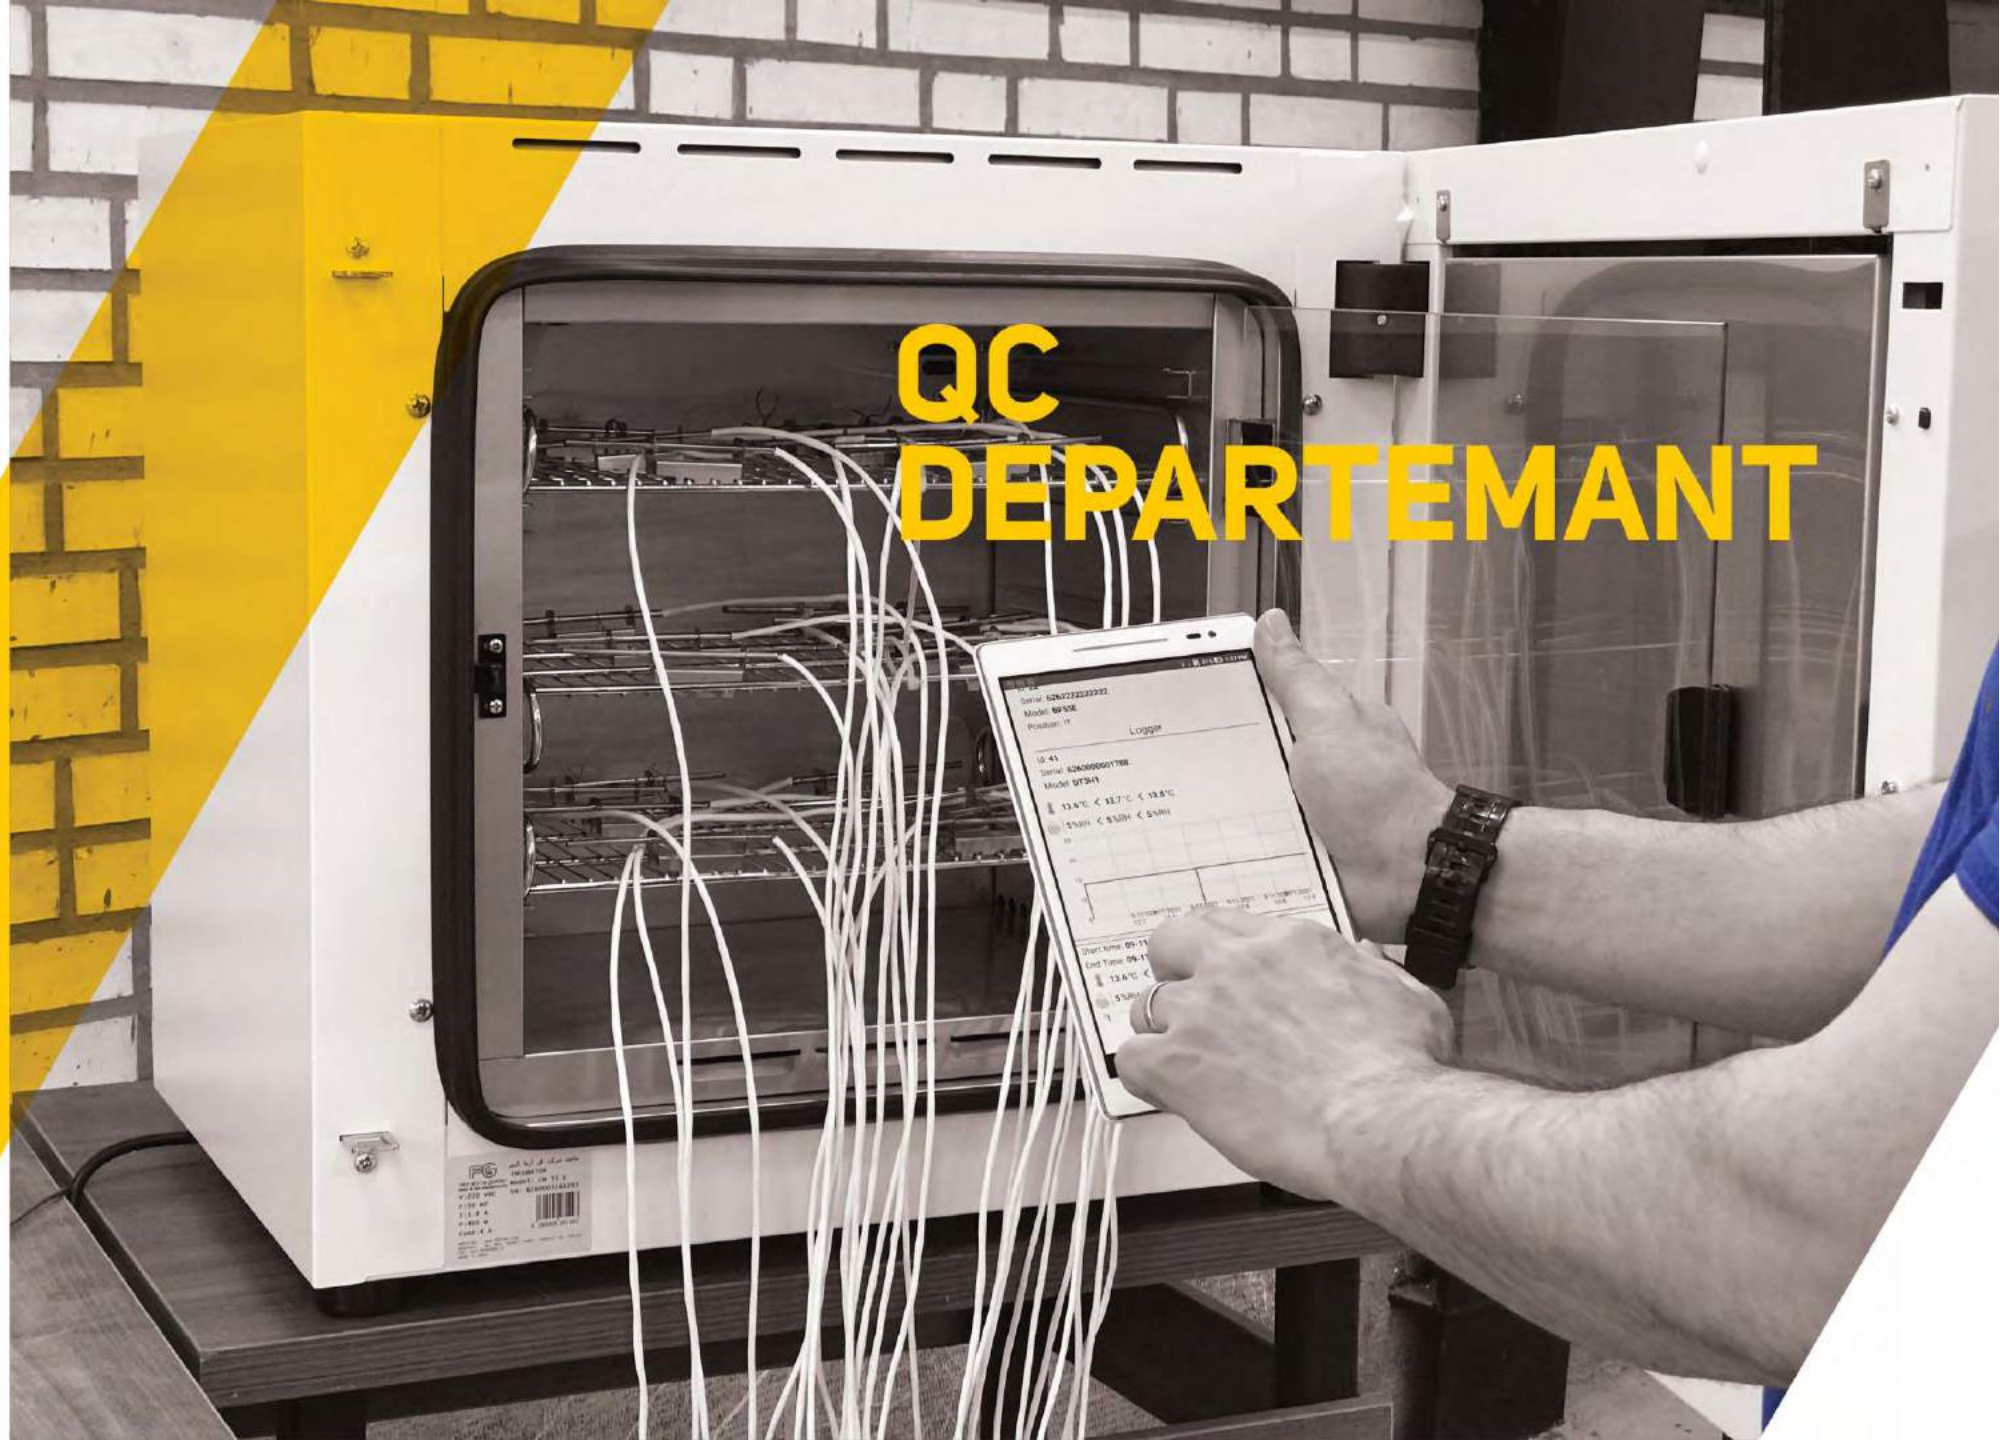

A word from the manager:

I am very glad that I have been able to produce a collection of high quality laboratory equipment in an entirely Iranian company and with a completely global approach. The foregoing collection is the result of the round-the-clock efforts of a group of professional experts. These products have been developed with the goal of high quality production and with the mentality of "producing only the best." I am proud to be managing a company that has been able to bring consumer satisfaction by producing modern and user-friendly products. I owe this success to the grace of God, the efforts of the staff, and the support of the customers. I assure you that all products of this company are manufactured in accordance with international standards. Hopefully, with the efforts of the hardworking staff of this company as well as the constructive criticisms of the customers, we can take a step, even a small one, to improve the quality of laboratory equipment. Lastly, I wanted to express my gratitude to all the kind people who have supported us in this way.

S. Samimi

FG studio
We know what
you want

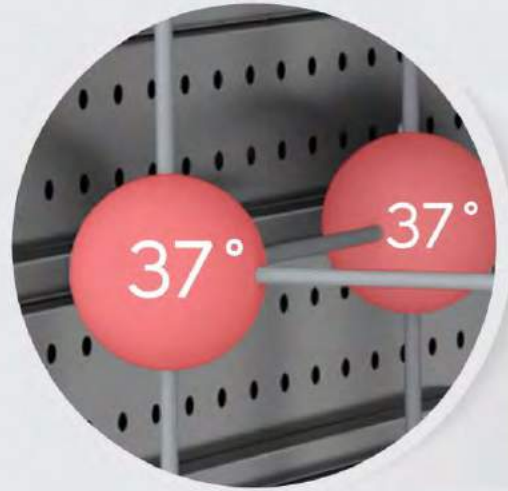

Technologies & innovations:

We solve your problem with our special innovations

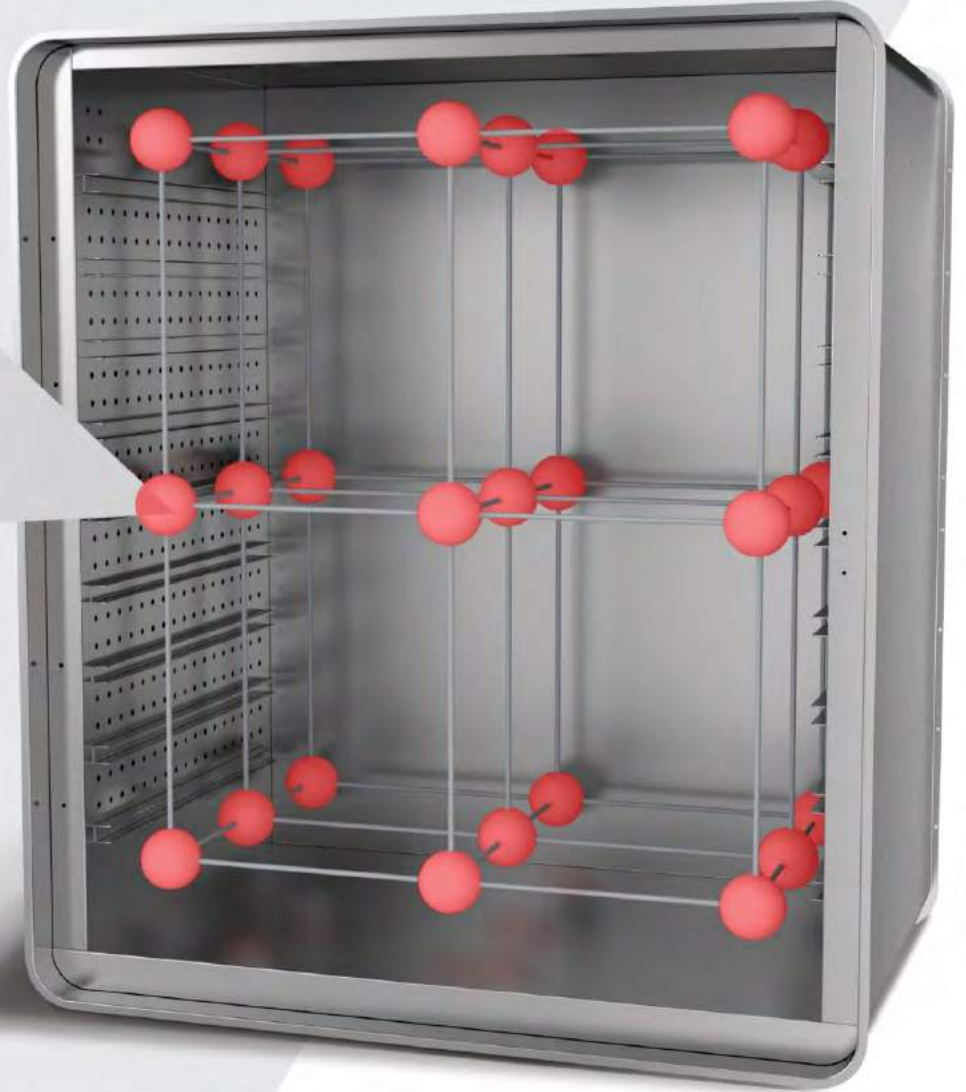

HCT

HCT

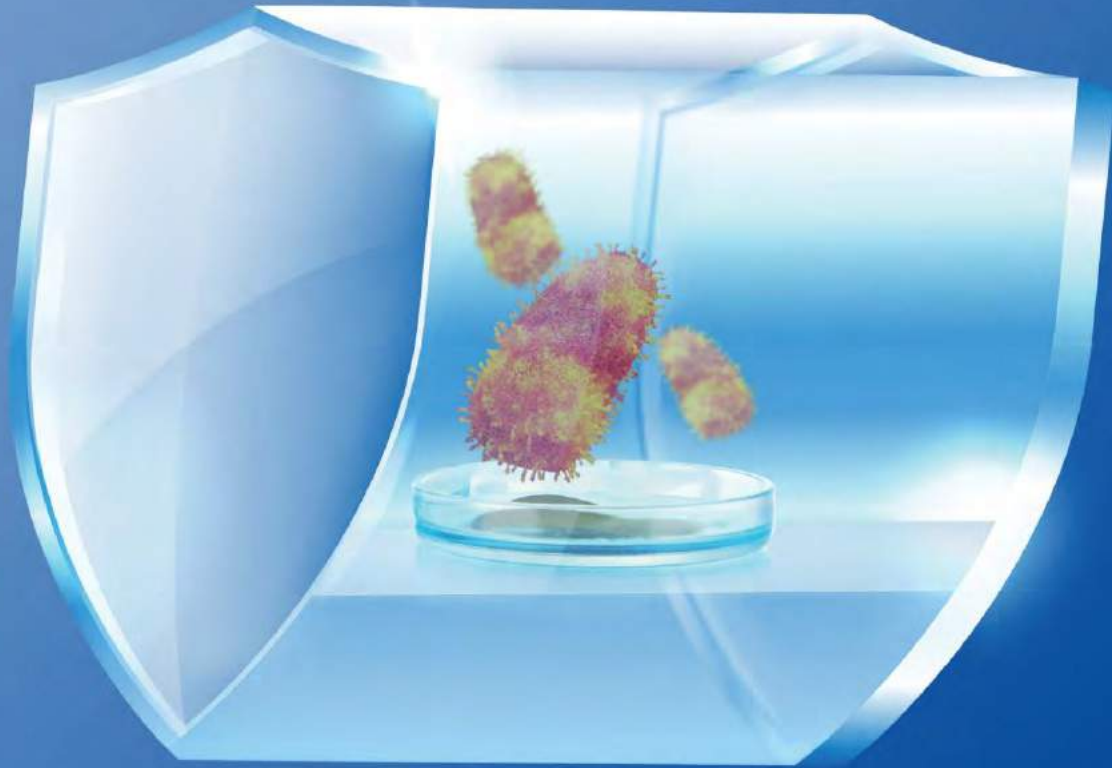

Uniform & precise

- Stable and reproducible temperature, humidity and climate conditions
- Rapid heating up and recovery time
- Uniformity@27 points

Dual Safety

Dual Safety

Your sample's guard

- Independent safety device
- Two controller & sensors
- According to DIN12880

NON - CUT

NON - CUT

Stable & Powerful

NON - CUT

NON - CUT

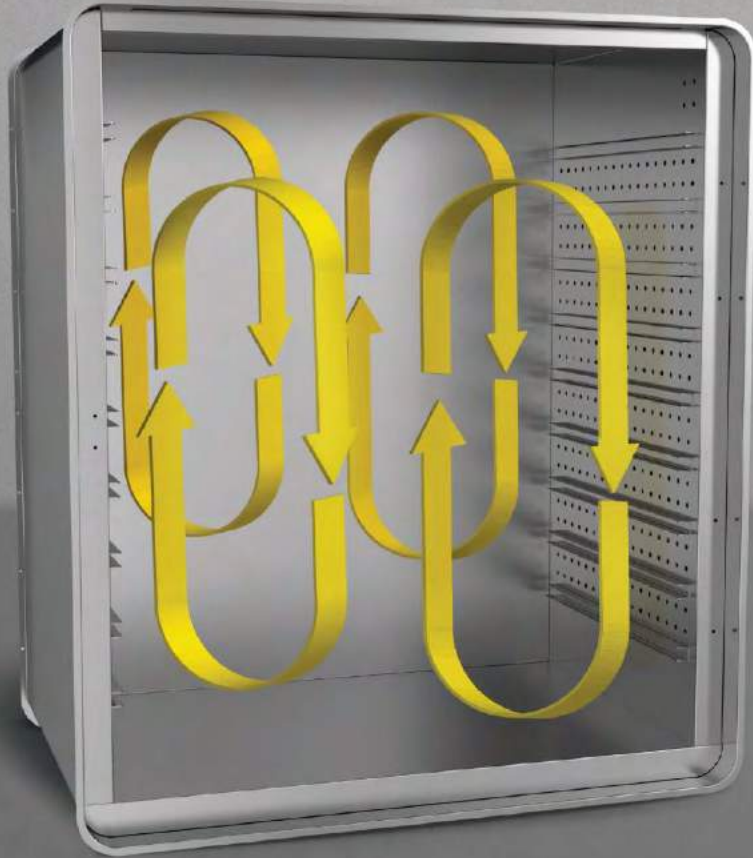

More Powerful
thanks to non-cut

NON- CUT

NON - CUT

No frost thanks to non- cut technology

Antipolar

Antipolar

No deposition
on sensors

- Electric sensors for adjust water surface
- Water sensors protection
- Prevent water deposition on sensors

CHP

CHP

Durable heater

- 20 % saving in energy consumption
- Temperature uniformity
- Heater protection from metal vapor

CMT

CMT

Smooth & Silent

- Uniform movement through whole surface
- Continuous operation, even under full load

HLD

Homogeneous,
Controllable and wide
(changeable) spectra

- Variable position and removable illumination cassettes
- Changeable light (cool white light, warm white light)
- Homogeneous light over the entire usable space
- Dimmable led light by 10%
- Long life and low power thanks to using high performance LEDs

Guaranty

Guaranty

2 years guaranty
10 years after selling services

Products & contents:

Stability test chamber

Growth chamber

Hot incubator

Cold incubator

Shaker incubator

Laboratory drying oven

Orbital shaker

Electric muffle furnace

Chiller circulator

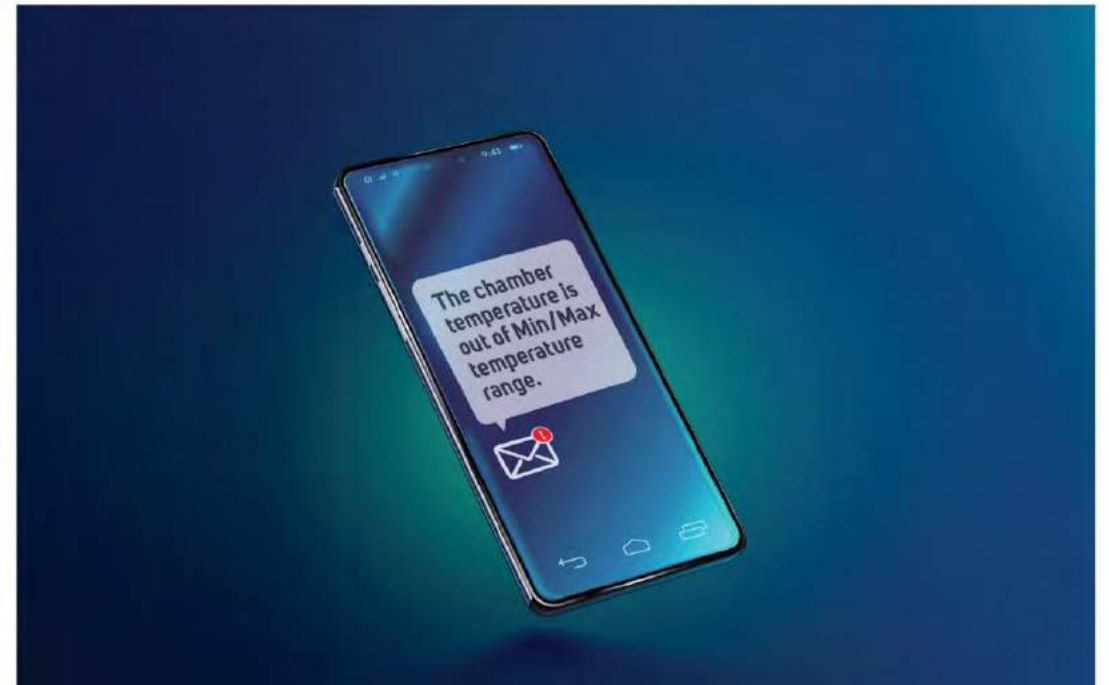

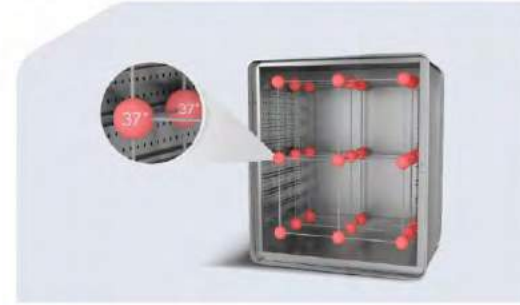

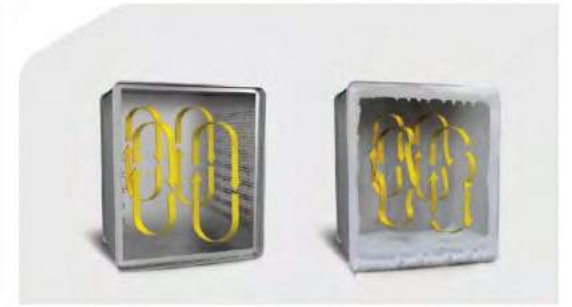

Stability Test Chamber

Special chamber that you can rely on

- Suitable for stability test according to ICH guideline Q1A (R2)
- Independent safety device thanks to dual safety technology
- Documentation in support of GMP/GLP compliance
- Uniformity@27points thanks to HCT technology
- Sms & email alarm
- Different sizes

ICH compliance
IQ, OQ, PQ qualification

HCT Dual Safety Antipolar

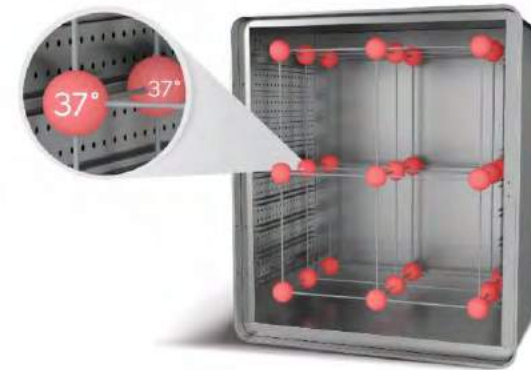

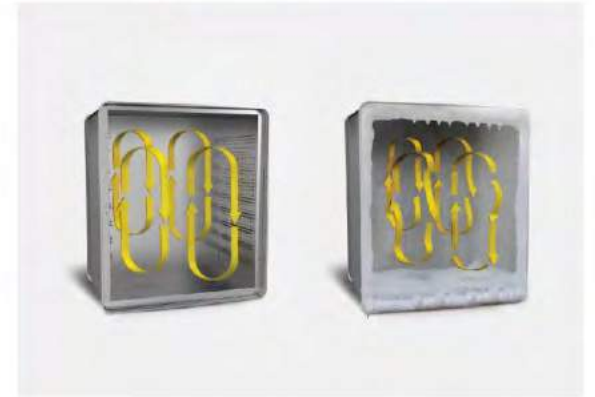

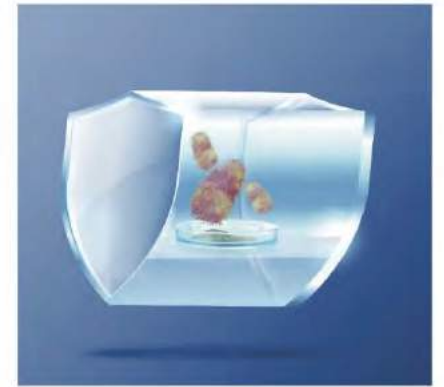

HLD NON-CUT

Growth Chamber

Unique design for uniform climate conditions

- Different sizes
- Uniformity@27points thanks to HCT
- Program up to 100 steps for temp, humidity & light
- Independent safety device thanks to dual safety technology
- Electronic changeable light(cool white light, warm white light, flora)
- Dimmble LED light by 10%
- Day & night cycle

HCT

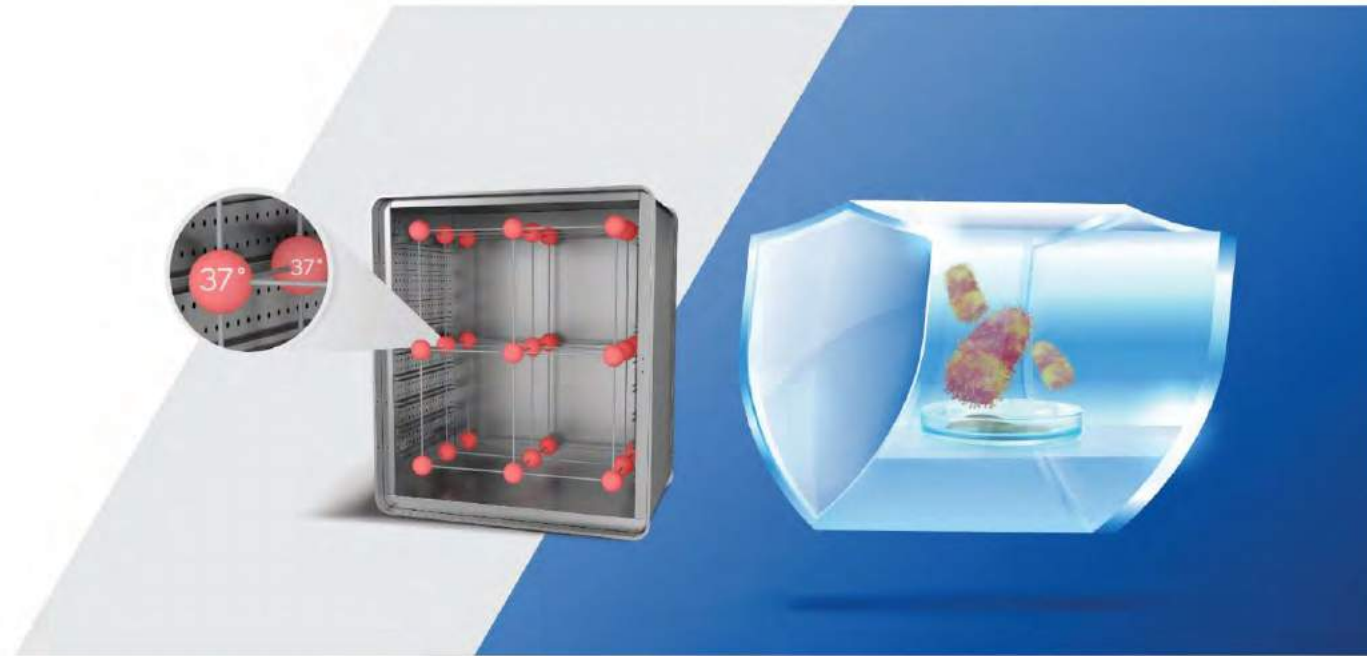

Dual Safety

Hot Incubator

Uniform & Presice

- Independent safety device thanks to dual safety technology
- uniformity@27points thanks to HCT technology
- Different sizes

HCT

Dual Safety

NON-CUT

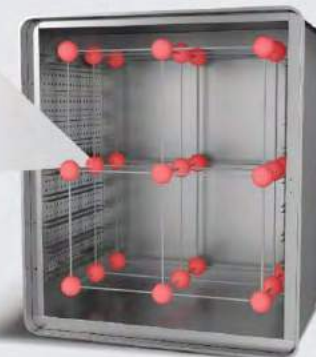

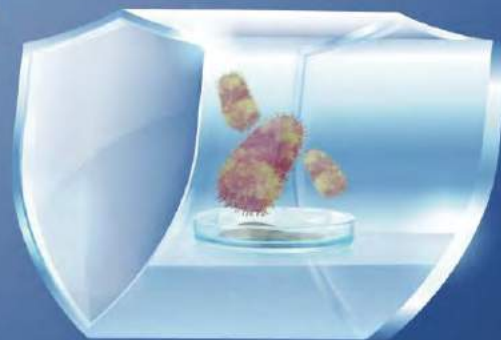

Cold Incubator Hot & Cold - stable & accurate

- Independent safety device thanks to dual safety technology
- Uniformity@27points thanks to HCT technology
- Frost free & more stability thanks to non-cut technology
- Different sizes

45

HCT

Dual Safety

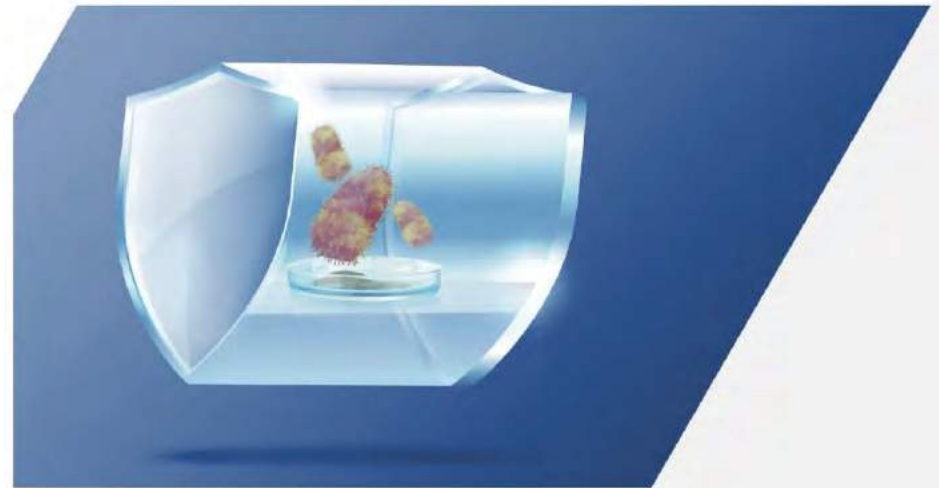

CMT

Shaker Incubator Silent & Accurate

- Continuous, smooth & silent operation
- Independent safety device thanks to dual safety technology
- Documentation in support of GMP/GLP compliance
- Uniformity@5 points thanks to HCT technology
- Usb connector for transfer data to PC

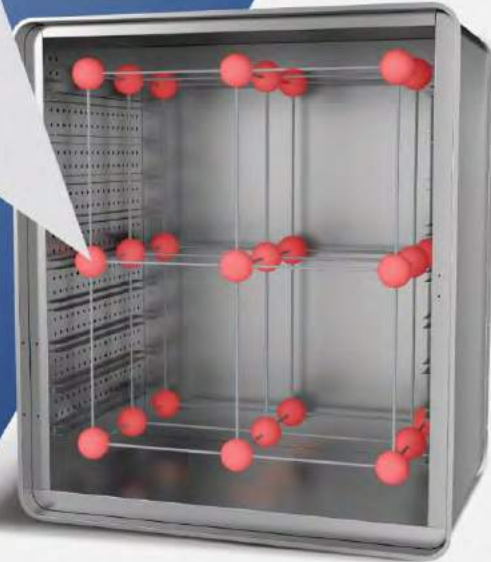

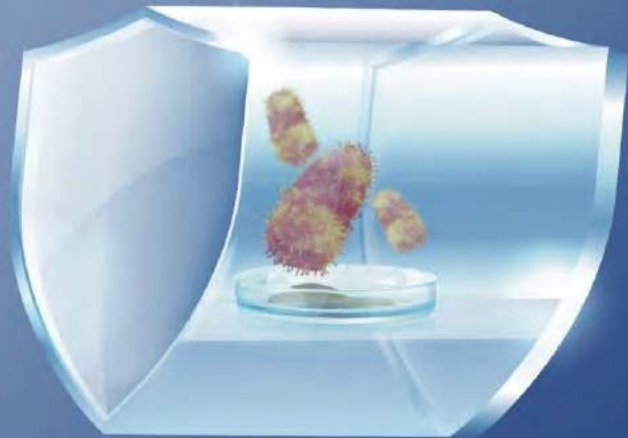

HCT

Dual Safety

Laboratory Drying Oven Fast & accurate up to 300°C

- Independent safety device thanks to dual safety technology
- Uniformity@27points thanks to HCT technology
- Up to 300°C
- Different sizes

Best Technology
For your Laboratory

Orbital Shaker

- Continuous ,Smooth & silent operation
- Up to 10 kg

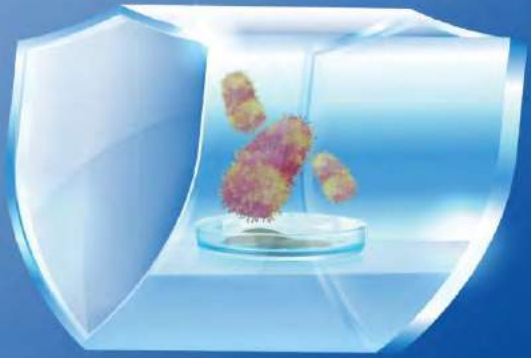

Electric Muffle Furnace

More durable than ever before

- Up to 1200°C
- High energy efficiency
- High shock resistant thanks to CHP technology
- Professional programming capability

Dual Safety NON-CUT

Chiller Circulator

fg smart monitor
